

Taiwan, police agency, wireless CCTV, street monitoring

Features:

- . Deploy at an area where cannot execute cabling installation
- . Wireless solution is the only choice
- . Technical consulting & training are required

Taiwan, police agency, wireless CCTV, street monitoring

Client feedback:

It was a mission impossible for us until we knew there's a wireless solution for it.

We're grateful to have deployment plan meetings, technical consulting and training to complete this project for government.
